Counselor Event

about the counselor event...

ECF is honored to announce the first annual Vancouver Counselor Event. We are inviting representatives from career training institutes, colleges and universities to present their information.

Topics of discussion include:

- Admission Requirements
- Important Deadlines
- Location
- Scholarships being offered
- Study Abroad, Internship or Work Experience programs
- Clubs, Athletics, Activities that they offer

It is a great opportunity to shine and present information that really matters to advisors!

who can attend?

We invite high school counselors, employment consultants and advisors from the lower mainland. It provides them the opportunity to meet with representatives and get their most vital questions answered.

Each attendee will receive a counselor package which highlights each of the programs presented at the event. We will be asking for registration from the attendees and will have a contact sheet available to all representatives post event.

why should your organization present?

ECF has the support of the local schools districts in each of the areas that we host our events. We do know that certain schools, due to budget constraints or schedule conflicts, cannot get to the event. Our event allows for more conversation than is possible during the day of the event.

The counselor package highlights your program details and ensures that the attendees have up to date information. A great resource!

Enrollment will be limited to 10 represenatives for each of these categories:

- Career Training Institutes
- Colleges
- Universities
